II. HAZARDOUS CONDITIONS AND INCIDENTS

01 ☒ A GROUNDWATER CONTAMINATION

03 POPULATION POTENTIALLY AFFECTED 500

02 ☐ OBSERVED (DATE _____) ☒ POTENTIAL ☐ ALLEGED

04 NARRATIVE DESCRIPTION

All landfills leak, there is the potential for groundwater contamination, private well use would be impacted

01 ☒ B SURFACE WATER CONTAMINATION

03 POPULATION POTENTIALLY AFFECTED UNKNOWN

02 ☒ OBSERVED (DATE 07/29/80) ☐ POTENTIAL ☐ ALLEGED

04 NARRATIVE DESCRIPTION

Leachate flowing into drainage ditch to East then thru cement pipe into stream running west to East bisecting site. Closest surface water to the site is Sugar Creek.

01 ☒ C CONTAMINATION OF AIR

03 POPULATION POTENTIALLY AFFECTED UNKNOWN

02 ☒ OBSERVED (DATE 03/21/82) ☐ POTENTIAL ☐ ALLEGED

04 NARRATIVE DESCRIPTION

Open-burning of Refuse

01 ☐ D FIRE/EXPLOSIVE CONDITIONS

03 POPULATION POTENTIALLY AFFECTED _____

02 ☐ OBSERVED (DATE _____) ☐ POTENTIAL ☐ ALLEGED

04 NARRATIVE DESCRIPTION

01 ☐ E DIRECT CONTACT

03 POPULATION POTENTIALLY AFFECTED _____

EXECUTIVE SUMMARY

The Buerkett 31st Street Landfill, ILD980901599, L1678250016, is a general municipal refuse and non-hazardous special waste sanitary landfill located near the intersections of Sections 1, 2, 11 and 12, Township 15 North, Range 5 West, in Sangamon County, Illinois.

The site was operated as a refuse disposal facility from approximately 1967 to 1970 by Buerkett. An Agency inspection (IEPA) on August 4, 1971 showed that the site was not operating, that one of two entrances to the property had been closed, and that 10 to 15 acres had been used to dispose of concrete, wood ties, and miscellaneous articles. The operator of the site did not secure an Agency permit, or a Department of Public Health permit, prior to operating the site.

The site has been operational since 1975 under authority of Illinois Environmental Protection Agency Permit Number 1975-1-OP. The landfill operated in three distinct areas known as Pit A, Pit B and Pit C. Pits A and B have been completed and all fill activity is now in Pit C, as authorized by Supplemental Permit No. 1985-6-SP, dated March 15, 1985. Pit C is an approximate 20 acre parcel, with a net fill area of approximately 16 acres.

Merle Buerkett has been a named respondent in three enforcement actions filed before the Illinois Pollution Control Board, in which final orders were issued against Buerkett for improper operations of the landfill.

- I. IEPA v. Clay Products, Merle Buerkett et al., PCB 871-4, June 23, 1971.
- II. IEPA v. Merle Buerkett and Harold Cline, PCB 77-294, April 27, 1978.
- III. IEPA v. Capital City Land, Inc., Merle Buerkett et al., PCB 81-182, September 15, 1982.

In all cases, the Board found Buerkett in violation of the Chapter 7 Solid Waste Rules and Regulations for failure to comply with the daily, intermediate, and/or final cover requirements.

Other repeated violations that this landfill was cited for are:

1. daily cover not being provided adequately to all refuse;
2. solid waste being deposited at the top of the slope instead of being deposited at the toe of the fill;
3. evidence of leachate flows and ponded leachate;
4. intermediate covering was not satisfactory;

5. large amounts of windblown litter was observed in and around the site;
6. inadequate depth of daily cover;
7. solid waste being dumped into standing water;
8. improper completed manifests;
9. vectors (birds);
10. open burning;
11. inadequate spreading and compacting; and
12. operating outside permitted hours.

The last inspection was conducted on September 9, 1985 by Rick Lanham, DLPC/FOS, Central Region. The inspection noted a violation of the site's operating permit by accepting demolition wastes that contained metal and wood debris. All other operations at the site on the above date (9/9/85) was in compliance.

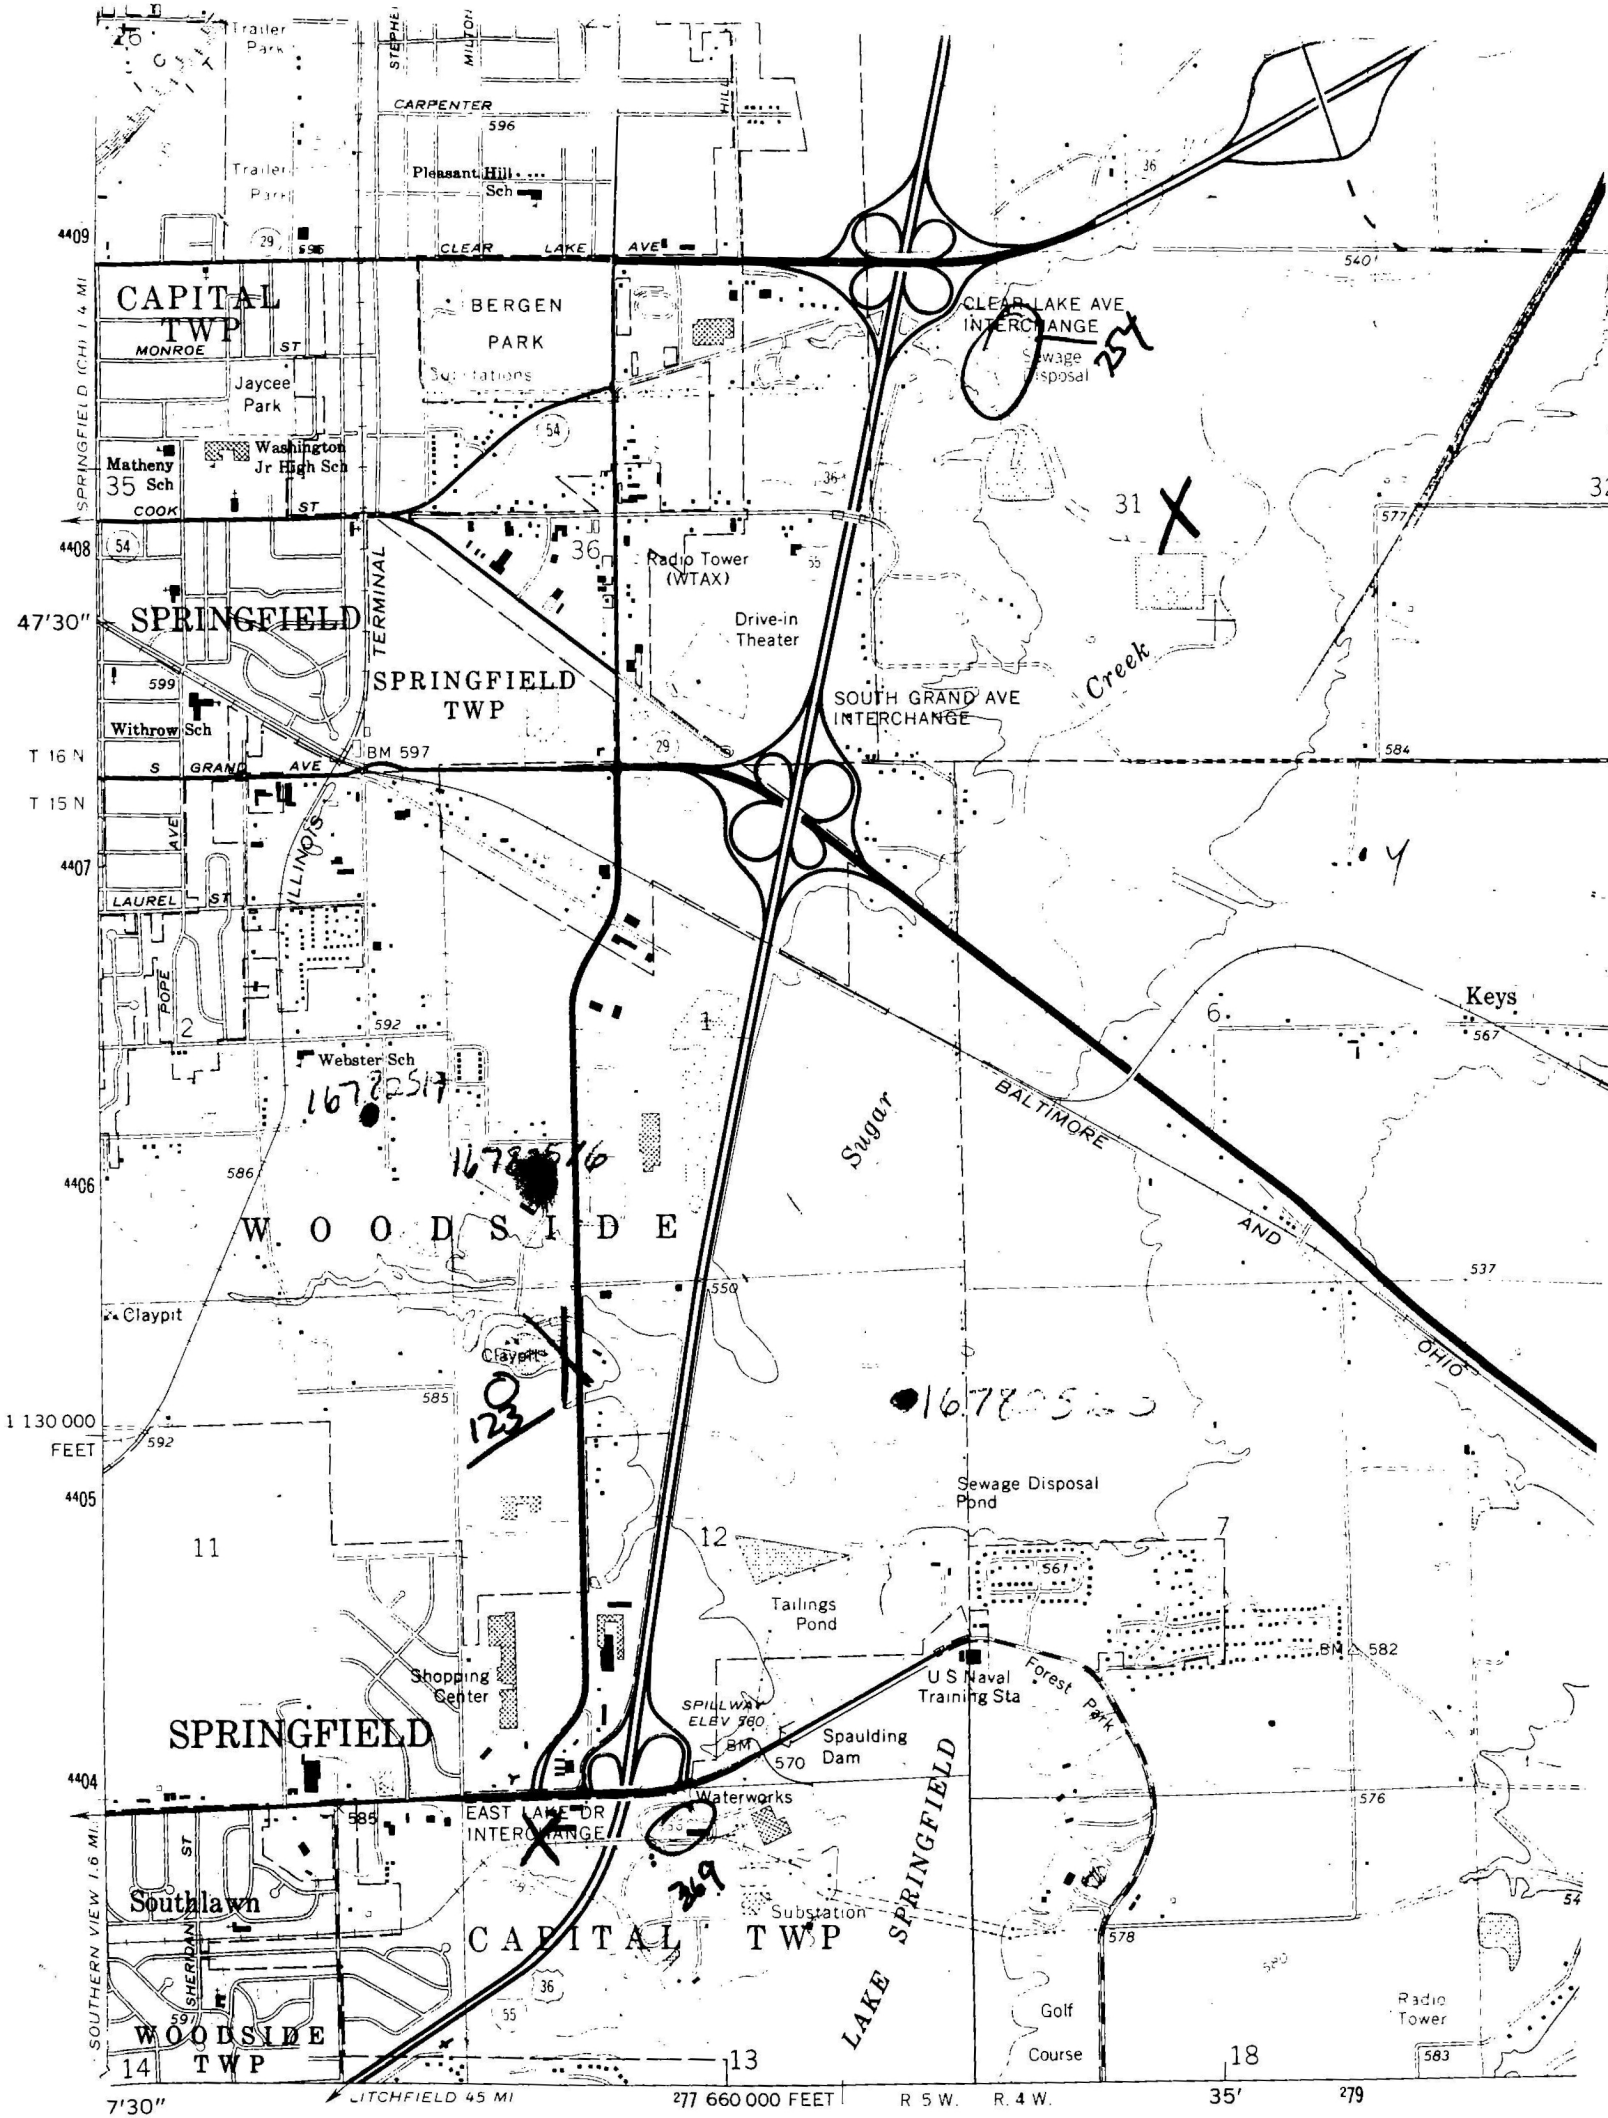

Due to repeated operational violations, this site is given a medium priority and an inspection is needed to assure operations are in order.
